Assistant Field Marshall: *Ron Miller*
Intro Pilots: *Seth Nagy, Vic Welland,
& Ron Miller*
Webmaster: *Chris Roberts*

A Note From The President

Prez Comments:

This year is full of potential for CAM. We have the opportunity to fly more often, more planes, fly different planes, and invite more people to become interested in this hobby we are so passionate about.

We have the chance to show someone how to build and create. This is a very rewarding experience for everyone involved in the process. It also promotes friendships that can last a long time. Our hobby is one that can be enjoyed by people of all ages and income brackets anymore. From incredibly inexpensive FFF and light electrics to the all out scale jobs there are models and building materials and techniques that will appeal to anyone willing to try.

This month we have the chance to show off how great a group we are as a club by hosting the Polar Pylon race on the 29th.

While last year's race got snowed out the first race was well attended by racers from the far reaches of the state who all commented that they had a great time. In fact all the events we have held for the last few years have had great support from our club and people traveling surprising distances. In my conversations with them

Next Meeting:
The next club meeting is
Tuesday, January, 18 @ 7 PM at the
library.

they continuously comment about how great a time they had.

We all need reminders; club and AMA dues should be taken care of by now. If you have not, please renew your membership soon.

If you are unable to attend the meeting and can help with the race on the 29th please give me a call or email. It looks like we are going to need at least 7 workers in addition to myself.

Bring something to show off, or at least a funny story to share.

Vic

BARKS Swap Meet 1/8/11

Next Meeting: Jan 18th at 5:30 PM at LHS
Gym (Seth will confirm availability) else 7PM
at the library

Meeting Adjourned at 8:30 ish

A little humor from around the patch:

The student in his primary trainer was flying a solo cross-country. He lost his way and before he finally ran out of fuel he decided to put it down on a road. With hardly any cars on the road he managed to coast his aircraft into a gas station and said to the attendant, "Fill 'er up!"

The attendant just looked at the pilot.

"I bet you don't get too many airplanes asking for a refuel," said the pilot.

The attendant replied "True, most pilots use that airport over there."

Be safe - John
