**Field Marshall:** *Ron Miller*  
**Assistant Field Marshall:** *Volunteer?*  
**Intro Pilots:** *Seth Nagy, Vic Welland,  
& Ron Miller*  
**Webmaster:** *Chris Roberts*

## A Note From The President

I think June was a great month for our club members. At our last meeting we covered a variety of building tools, methods, and how to apply them. These techniques are important to all of us whether we are building a new plane or as is the case for me, fixing one after a not so graceful landing. It's very rewarding to have a plan work out.

As far as plans go, the Speed Rally was once again a resounding success. While I personally feel attached to the rally this year it really showed that it is an event our club has embraced as well. The success we had was without question the product of great people willing to jump in and help. Dave Groom did an amazing job getting coverage into the newspaper. If any did not hear the online radio show on All Things That Fly they gave a 5 minute rave about how much fun it was.

If you have an idea for an event you would like to host please let us know. It's great fun...when it's over. Thank you ALL!  
*Vic*

Next Meeting:  
The next club meeting is  
Tuesday, July, 19 @ 7 PM at the Field.

## Meeting Agenda

Caldwell Aero Modelers Agenda

July, 19 2011

Welcome Everyone

Membership Report

Safety Report

Field Report

Intro Pilot Report

Old Business

New Business

Announcements

Monthly Presentation -- TBD

Adjourn until August 16 at the field

Auction & Show-N-Tell -- TBD

So far our runway seems to be holding up, in spite of my attempts to start a propeller tree in the middle of it. Our new tables and ramp to the shed are also working very well. The entrance has been fully operational for all vehicles this year. All these things are the result of some hard work by dedicated club members. These actions give us a great place to fly but they also bring us together as friends with a common interest. Little planes.

These little planes make for a great hobby in the form of getting outside while flying, staying busy inside while building, and the basis for some great conversation with almost anyone we meet. That last part is an area that all of us can engage in to promote our hobby. In the past we have hosted interested family members, workmates, and even friends from church. This is great!

We are all responsible for the health of our club in membership. By introducing ourselves to people who come to our events or just show up out of curiosity at the field we put a nice face on who we are. Keeping fresh faces interested will help insure the longevity of our club...and our hobby.

We are still in a holding pattern regarding the FAA vs. AMA regulations. Nothing of immediate importance has been posted at AMA's site. We should still be keen to check the government relations page regularly.

Enjoy the pictures from the rally. It was fun to be there.
